Influenza, Colds, Pneumonia, Sore Throat

Yields Quickly to Antiseptic Oil Treatment.

Many are finding relief from Influenza, Colds, Sore Throat and perhaps preventing pneumonia, it is said, by the use of Miler's Antiseptic Oil (known as Snake Oil). Its great penetrating, pain relieving qualities insure almost instant relief when applied freely on the chest or throat, well greased when first symptoms arise. The Oil penetrates through to the affected parts and tends to open up the air passages, making breathing more easy, relieving the pains. And for the cough a few drops on a little sugar usually brings prompt relief. Don't fail to have a bottle on hand when the attack comes on, and if used according to directions results are assured, or your money refunded. Quit Laxatives, Purges; Try NR

NR Tonight - Tomorrow Feel Right

It is a mistake to continually dose yourself with so-called laxative pills, calomel, oil, purges and cathartics and force bowel action. It weakens the bowels and liver and makes constant dosing necessary.

Why don't you begin right today to overcome your constipation and get your system in such shape that daily purging will be unnecessary? You can do so if you get a 25c box of Nature's Remedy (NR Tablets) and take one each night for a week or so.

NR Tablets do much more than merely cause pleasant easy bowel action. This medicine acts upon the digestive as well as eliminative organs—promotes good digestion, causes the body to get the nourishment from all the food you cat, gives you a good, hearty appetite, strengthens the liver, overcomes billousness, regulates kidney and bowel action and gives the whole body a thorough cleaning out. This accomplished you will not have to take medicine every day. An occasional NR tablet will keep your body in condition and you can always feel your best.

Try Nature's Remedy (NR Tablets) and prove this. It is the best bowel medicine that you can use and costs only 25c per box, containing enough to last twenty-five days. Nature's Remedy (NR Tablets) is soid, guaranteed and recommended by your druggist.

JAPAN WILL MOVE

Decides to Take initiative Towards Reconciliation.

Tokio Oct. 22.—It is reported that the Japanese government has decided to take the initiative toward a reconciliation between North and South China by giving advices to the president and leading politicians of each side separately. Tang Shao Yi, former premier of China, now is in Tokio, and met Viscount Uchida, foreign minister, by invitation on Friday.

It is probable the advice will be couched in purely friendly terms with the utmost care being taken to avoid forms; intervention. Economic loans to the North Chinese government concluded during the Terauchi regime helped the northern government but they excited suspicion and district among southerners. The present government is believed to be in a position to undertake a new polity toward China.

CZECHS CONTROL FOOD

New Bohemian Regime To Be Orderly in Discipline

In Discipline

Amsterdam, Oct. 29—Austria has handed over entire control of food supply and distribution to the Czech authorities in Bohemia, a Vienna dispatch to the Vossische Zeitung of Berlin says, with the result that 100 carloads of potatoes are on their way to the famishing Austrian capital.

A dispatch from Prague to the same newspaper dated October 24, says that in compliance with a demand made by American bankers, the Czech leaders have given an undertaking that the prospective Czech government will make every effort to have the new regime in Bohemia come into operation without excesses.

Bohemia collective excesses.

The correspondent adds that this is borne out by the entirely calm behavior of the Czechs in Prague who are entitled to credit, at least for the present, for keeping perfect discipline.

The telegram came as quite a surprise, the men having received orders to close the station on the first. The two local recruiters will probably be placed at the Paris Island marine training station. All the men who were relieved from their station by close up order were given their choice in selecting their camp and both of the local men chose Paris Island where they received their training.

DANIELS EXPOSES AIMS

Of Faction New Suddenly Opposing

Peace Points.

Hartford, Oct. 29.—"Let nobody mistake the purpose of those who are suddenly opposing the president's fourteen demands." Secretary Daniels said last night in an address here urging the return of a democratic majority in congress. "It is to try to drive a wedge between the allies, to create difference, and to make one allied nation suspicious of the good faith of its associates. For nine months all America has stood for Wilson's declarations in his great speech of Jan. 8. Now that the time has come when American leadership is to prevail for the good of all the world there are those who wish to destroy their country's proud place. We have professed that we went into this war for unselfish aims and that we wanted nothing for ourselves. That is what Wilson declared, and men of all nations applauded. "No matter what the motive," said the secretary, "the result is that if we do not stand united for the fourteen principles which our allies have ac-cepted, the agitation for a repudiation will make our allies think we are not to be trusted, will make them query whether America was sincere, and will impeach America's good faith."

COTTON GINS RESUME

Mills Cleared to Prevent Further Accumulation of Cotton seed.

Lyeriy Ga., Oct. 29.—The gins of Chattooga county resumed operations Monday after having been closed down for ten days by agreement, the cotton-seed accumulating so rapidly that it was impossible to secure necessary storage rooms for the seed. The ginners were unable to handle the seed during the last few days prior to the close-down and the authorities, in order to prevent the seed from heating and rendering them unfit for food, ordered the gins to remain idle for a period of ten days, which ended Saturday night.

The ginners are anticipating a rush for the next few days, as the ten day shutdown enabled the farmers to pick and store away several hales of cotton each, but after the present rush is over the main crop for this year will be gathered and ginned.

The favorable weather conditions existing during the entire fall has caused the cotton crop to be gathered almost as fast as it opened, it being estimated that at least 80 per cent. of the crop in this section has already been gathered, and a few more weeks of favorable weather will find the cottonfields entirely picked.
